

Genie GR-15

Vertical Mast Lifts

Efficient operation and convenient setup, the Genie® Runabout® GR™ -15 lifts offer precise up and over access — with outreach capability to get virtually any job done. Genie Runabout lifts are compact, low-weight machines that increase productivity on the job.

Overview

- Ideal for warehousing, stock-picking, transporting, inventory management and general maintenance
- Drivable when fully elevated
- Zero inside turning radius, 140° rotating jib and 350° non-continuous hydraulic turntable for precise positioning
- Narrow width to fit through doorways and in most passenger elevators
